Introduction

iMRS 2000 PEMF - A Whole Body Battery Recharger

The natural earth based pulsed magnetic fields (PEMFs) from the iMRS 2000 help to recharge, heal and regenerate the body in many ways. PEMF has been proven to enhance circulation, oxygenation, nutrient absorption, ATP production and detoxification all the way to the cellular level. Simply PEMF helps to get the “good stuff” into your cells so that energy can be created, then PEMF helps to remove toxins and waste products from the cells.

By delivering all the essential nutrients to the cells and recharging the cellular battery, the iMRS 2000 assists the body in healing itself of almost any condition. But to be clear, it is the body that heals itself, the iMRS 2000 just gives the body the energy needed to energize, heal and recharge your 100 trillion cells and in the process helps to alleviate pain, heal the body, help with better sleep and much more. Check out page 8 for a sample of the 284 protocols the new iMRS 2000 iGUIDE system has.

The Two-Fold Problem

Since the earth has natural PEMFs and a magnetic field why do we need the iMRS 2000?

While we can always go outside and lay on the earth to get these energies from the earth, over the past 500 years the earth's magnetic field has declined by over 50%. Many theorize that we are in the process of a pole reversal over the next couple thousand years. On top of that people spend too much time indoors and insulated from the earth's Natural fields.

Perhaps even a bigger problem is that we also get too much of the unhealthy PEMFs or what is called electro-smog or dirty electricity. We get this from power lines, computers, cell phones, digital clocks, microwaves, T.V.'s, WiFi, blue-tooth, hair dryers, etc. These unhealthy energies block the natural frequencies from the earth that are vital for life along with disrupting cellular metabolism.

"If you want to find the secrets of the universe, think in terms of energy, frequency and vibration."

-Nikola Tesla

The 2018 iMRS 2000 – The “NATURAL” Solution

The iMRS 200 is the only PEMF device that actually duplicates Nature both in intensity and frequency. It does this with a saw-tooth waveform which delivers bunches of the frequencies from 0-30Hz simultaneously which helps to recharge all your different tissues and cells. In eight minutes twice per day all the bodies trillions of cells will be fully recharged and oxygenated. With a total of just sixteen minutes per day, the iMRS 2000 full-body mat gives the human body the energetic equivalent of walking barefoot in nature for 2-4 hours!

The pillow pad and probe use the NASA proven square wave that has been proven by NASA to be the most effective signal for pain relief, healing, regeneration and recovery from injury.

Additionally the iMRS 2000 is the only device that utilizes a biorhythm clock to ensure the body receives energizing frequencies in the early part of the day, and relaxing frequencies in the evening.

“Electromagnetic Energy us the Elemental energy
on which all life and organisms depend on.”

-Heisenburg

2018 iMRS 2000 Products

iMRS 2000 Control Unit

The iMRS 2000 control unit is 45% smaller than the older generation MRS 2000 with a brand new and unique “Natural Skin Surface” with easy touch membrane buttons, a pearlized white finish, and a beautiful lighted blue digital display. It includes a secure digital or SD card slot for easy upgrades.

The unit is simple to use, all you need to do is select the applicator, time and intensity and press start. The iMRS 2000 is digital, programmable and easily upgradeable. This control unit is intelligent with an automated bio-rhythm clock, intelligent detection of applicators, and new programmable presets for 3 users or settings for pillow, probe and mat. The iGUIDE, iSLRS and iMORE accessories are fully integrated (see pages 6-8).

iMRS 2000 Full Body Mat

The iMRS 2000 full body mat is a “cool grey” color with an ergonomic placement of the input cord. The full body pad is slightly narrower, more durable and thicker than the previous mat. It also has seams, which make it easier to fold and store. The iMRS 2000 whole body mat uses 3 pairs of pure copper coils creating a clean and pure pulsed magnetic signal. The whole body applicator uses a saw-tooth signal that delivers the full spectrum of earth-based frequencies, which energize, oxygenate, alkalize and promote circulation to the cells. Simply put, the full body mat acts like a “whole body battery recharger”.

New Pillow Pad

The iMRS 2000 pillow pad is made of the same new “cool grey” material and also has an ergonomic placement of the input like the full body mat. The iMRS 2000 pillow pad uses one pair of pure copper coils and uses the NASA proven square wave for pain relief, healing, recovery from injury and regeneration. The pillow is very practical and comfortable to use for even long sessions.

iMRS 2000 Probe/Wand/Pen

The iMRS 2000 probe (also called the wand or pen) is a big improvement over the previous probe. It is now made of an extremely durable anodized steel AND it's 4.5 times stronger than the older probe in that it can go up to 300 microtesla on the highest setting vs the previous 70 microtesla. This especially helps with pain relief. The probe uses the same NASA proven square wave as the pillow pad but in a much more focused and penetrating dose. The probe is extremely helpful for any and all forms of pain, as well as healing, regeneration and conditions that are localized.

The iMRS 2000 iMORE HRV Biofeedback System

Perhaps the most exciting announcement in the new iMRS 2000 was the introduction of the iMORE (Interactive MONitoring and Regulation System).

The iMORE uses Heart Rate Variability (HRV) as a biofeedback loop to automatically adjust the intensity of the system. This is like putting the iMRS mat on autopilot, as it will intelligently adjust to what the user needs.

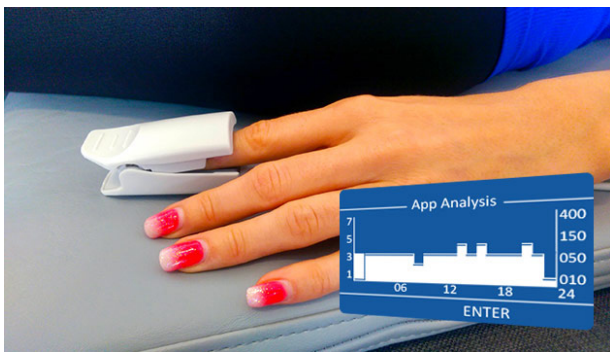

HRV monitors the balance and ability of the Autonomic Nervous System to react to changes in the environment. The iMRS 2000 is currently the ONLY full body mat system with biofeedback.

Over time, the iMORE & iMRS 2000 applicators will be able to train and improve your personal HRV by creating homeostasis in the body. Also because it gives a unique session every time, you will NEVER experience habituation or diminishing returns like other PEMF devices on the market.

iMRS 2000 iMORE 2.0 - Advanced HRV & PEMF Biofeedback

The iMRS 2000 iMORE 2.0 is an advanced approach to biofeedback technology helping to find the optimal settings for the user during an iMRS 2000 application. The Algorithm was reprogrammed and refined and now contains 7 levels (previous had only 3). With this option iMRS 2000 users can utilize the entire intensity range of the iMRS 2000 while using iMORE 2.0 with the iMRS.

At the end of each session, a graph analysis on the iMRS 2000 display appears and shows the relation between the evaluated HRV's and the adjusted intensities over the application duration. For the first time in the history of PEMF-devices for home use a system is able to display this data in one reading while it helps to determine the optimal setting(s) as well as analyzes and visually reviews the entire application.

Another included upgrade is the gradual pre-programming. It is actually developed for Health Care Practitioners, who are already experienced with PEMF use. The iMRS 2000 gives you up to 5 sequential options to build your own gradual application. In the 5 available steps you can individually define the application duration and the intensity. Once you pre-program the max. 5 sections, the iMRS 2000 will add it up to ONE consecutive application and run it automatically.

The New iMRS 2000 iSLRS Light and Sound System

The iSLRS, an integrated Sound & Light Relaxation System, can best be described as a “spa for your brain.” It works seamlessly with your iMRS 2000 to melt away stress, improve oxygen circulation to your brain, deepen your ability to enjoy relaxing, restorative sleep, and naturally improve emotional balance without drugs or side effects.

While every cell of your body enjoys the oasis of rejuvenation provided by the iMRS 2000 full body mat, the iSLRS simultaneously bathes your brain with the rest and renewal it needs to return to balance and equilibrium. Mental focus, clarity and productivity improve. Irritability gives way to a sense of well-being. The iSLRS is easy to use and definitely makes each session more enjoyable.

The NEW iSLRS comes with an integrated goggle and earbuds so there is no longer any headphones. Goggles are for visual stimulation. Red, blue and green LED's with dimmer switch. The earbuds are for the binaural beats. Together this light and sound synchronizes both hemispheres of the brain and improves creativity, relaxation, sleep and more!

The iSLRS comes with the following features:

SD Card with 45 minutes anticipated music (2-18Hz)

Goggles with 3 led colors and built ear-buds for music

Built in Music Player in iMRS 2000 control unit with 8 songs to choose from

Fully synchronized with every “iMRS 2000 - whole body mat application”

The iMRS 2000 iGUIDE

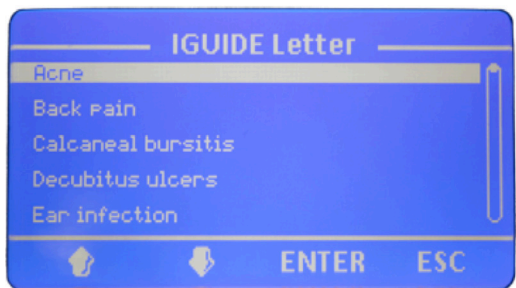

The iMRS 2000 iGuide is a SD card software program that was once available only to licensed practitioners, but NOW can be used by anyone.

The iGuide SD card comes preprogrammed with 284 conditions and settings for the pillow, probe and pad which in total is around 3500 pre-programmed variations for all applicators and organ clock settings. The iGuide upgrade also gives the practitioner the ability to program a time from 1-60 minutes instead of just 8, 16 or 24 minutes.

Here is a sample of 64 of the protocols contained in the iGUIDE. Call us for the complete list of 284. These protocols were based on over 5 years of clinical experience in a clinical setting with much research to back it up.

Acne Allergies Alzheimers Appendicitis **Asthma** Attention deficit disorder/ Attention deficit/ Hyperactivity (ADD/ADHD) **Autism** Autoimmune disease **Back pain** Cancer (accompanying) **Cataract** Chronic fatigue syndrome (CFS) **Cold** Crohn's Disease **Degenerative disc disease (DDD)** Dementia **Depression** Diabetes **Diarrhea** Dizziness **Earache** Fever **Fracture** Fibromyalgia **Gastroesophageal reflux disease (GERD)** Glaucoma **Gout** Heart attack **Hepatitis** Herniated discs **Hypertension** Immune system support **Impotence** Inflammation **Influenza** Insomnia **Irritable Bowel Syndrome** Low back pain **Menopausal symptoms** Migraine headache **Multiple sclerosis** Nausea **Neck pain** Obesity **Osteoporosis** Pain (acute) **Pain (chronic)** Parkinson's disease **Peripheral neuropathy** Premenstrual syndrome (PMS) **Psoriasis** Restless leg syndrome (RLS) **Rheumatoid arthritis** Sciatica **Shingles** Sleep disturbances **Sport injuries** Stress **Stroke** Sunburn **Tinnitus** Ulcers **Urinary incontinence** Wound healing

NOTE: The iMRS 2000 is not intended to treat, cure or mitigate disease, rather these protocols assist the body in healing itself by enhancing circulation, oxygenation, nutrient absorption, energy production and detoxification.

"We now realize that the phenomena of chemical interactions, and, ultimately life itself, are to be understood in terms of electromagnetism."

-Richard P. Feynman

2018 Products and Pricing

iMRS 2000 Packages

iMRS 2000 Wellfit

Article ID: **65 110** Price USD: **3775.00** / Canada: **4998.00**

Includes:

- Control Unit
- Power Plug
- Owner's Manual
- Two (2) Applicators: Whole Body Mat and Pad
- SD Card for basic home settings up to 200

iMRS 2000 Complete

Article ID: **65 120** Price USD: **4565.00** / Canada: **5948.00**

Includes:

- Control Unit
- Power Plug
- Owner's Manual
- Three (3) Applicators: Whole Body Mat, Pad and Probe
- SD Card for complete wellness settings up to 400

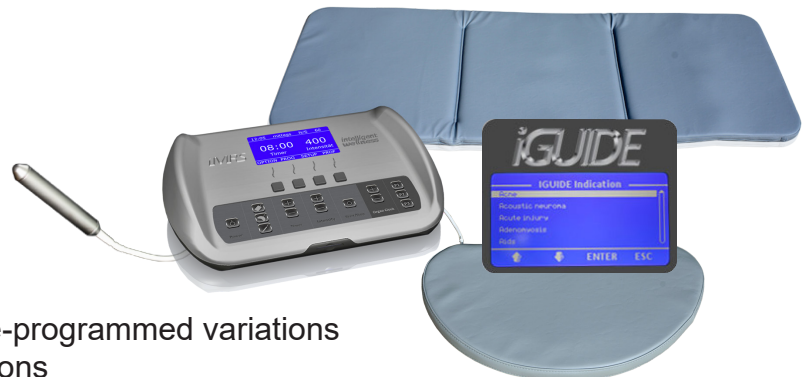

iMRS 2000 Professional

Article ID: **65 130** Price USD: **5545.00** / Canada: **7198.00**

Includes:

- Control Unit
- Power Plug
- Owner's Manual
- Three (3) Applicators: Whole Body Mat, Pad and Probe
- SD Card for complete wellness settings up to 400
- GUIDE: a database with almost 3500 pre-programmed variations for all applicators and all organ clock options
- Adjustable timer for sessions lasting from 1 to 60 minutes

Main Accessories

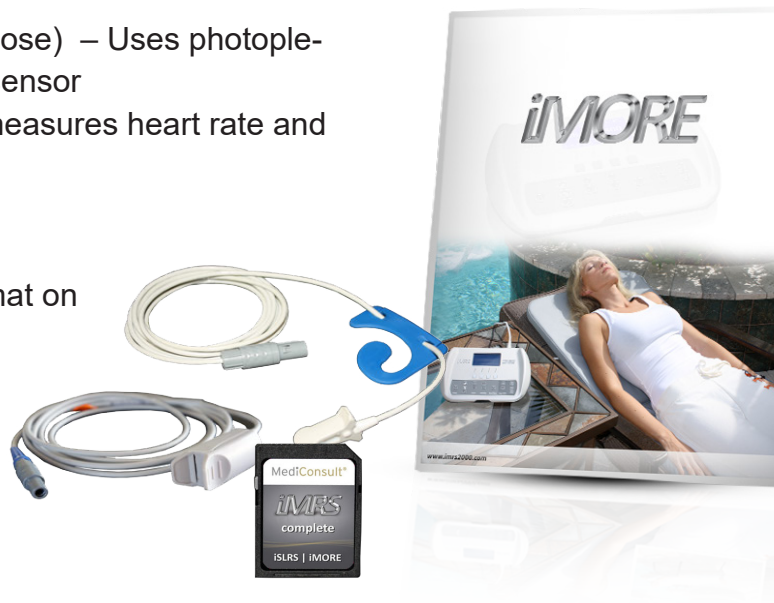

iMORE 2.0 HRV Biofeedback System

Article ID: **65 150** Price USD: **709.00** / Canada: **919.00**

Includes:

- HHRV finger or ear sensor (you choose) – Uses photoplethysmographic (optically obtained) sensor
- SD Card – Contains software that measures heart rate and cardiac cycles
- Instruction Booklet

The iMORE Puts using the full body mat on autopilot by adjusting the intensities automatically by way of advanced biofeedback sensors and software.

iSLRS Sound and Light Relaxation System

Article ID: **65 140** Price USD: **699.00** / Canada: **898.00**

Includes:

- iSLRS Goggles for visual stimulation. Red, Blue and Green LED's with Dimmer switch. Earbuds built in to goggles so its all one system now.
- SD Card with 45 minutes of relaxation music (2-18HZ)
- Built in Music Player with 8 relaxing songs
- Instruction Guide

"Look deep into nature and understand everything else better"

-Albert Einstein

iMRS 2000 Promotional Packages (Sets)

iMRS 2000 Wellfit SET

Article ID: **65 910** Price USD: **4695.00** / Canada: **6128.00**

Includes:

- iMRS Wellfit System
- iSLRS (with goggles, sd card and booklet)
- iMORE (with HRV sensor, SD card and booklet)

BUY & SAVE
\$488 USD
687 CAD

iMRS 2000 Complete SET

Article ID: **65 920** Price USD: **5505.00** / Canada: **7168.00**

Includes:

- iMRS 2000 Complete System (w/ probe + high setting)
- iSLRS (with goggles, sd card and booklet)
- iMORE (with HRV ear sensor, SD card and booklet)

BUY & SAVE
\$468 USD
597 CAD

iMRS 2000 Professional SET

Article ID: **65 930** Price USD: **6545.00** / Canada: **8528.00**

Includes:

- iMRS 2000 Professional (w/ probe + high setting + iGUIDE + 1-60min setting)
- iSLRS (with goggles, sd card and booklet)
- iMORE (with HRV ear sensor, SD card and booklet)

BUY & SAVE
\$408 USD
487 CAD

iMRS Fauna

Magnetic resonance stimulation could also be used for horses and other animals. In contrast to people, animals do not fall victim to the so-called “placebo-effect”. Animals act unbiased and instinctively. The completely new developed iMRS 2000 Fauna is the successor of the world famous Enerpuls system. It has been engineered and designed completely new. Practicability and compatibility are the keywords when looking on the brand new iMRS 2000 Fauna system. The iMRS 2000 Fauna system includes:

iMRS 2000 Fauna System

Article ID: **65 520** Price USD: **6349.00** / Canada: **8265.00**

Includes:

- iMRS 2000 control unit with iMRS Fauna SD-Card
- iGUIDE for animals
- iMRS 2000 Fauna biorhythm organ clock
- Two area applicators
- Two leg applicators
- SkinBag for control unit
- Power Plug
